## EX PARTE QUAYLE ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/7/2011 has been entered.

2. This application is in condition for allowance except for the following formal matters:

### ***Election/Restrictions***

3. Claims 1-8 and 11-12 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 9-10, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 3/11/2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be

Art Unit: 1777

subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Specification***

4. The disclosure is objected to because of the following informalities:

The subject matter (most recent claim amendment) from claims 1-2 and 11-12 is not reflected in the written description. The subject matter is supported by the drawings. Applicant should amend the specification to reflect the new claim limitations taken from the drawings.

Appropriate correction is required.

### ***Claim Objections***

5. Claims 9-10 are objected to because of the following informalities:

Claim 9 recites in line 3 and claim 10 recites in lines 1-2, "a hollow fiber membrane bundle". It is unclear whether this is the same hollow fiber membrane bundle from claims 1/2 or if this is directed to a different hollow fiber membrane bundle.

Appropriate correction is required.

### ***Allowable Subject Matter***

6. Claims 1-8 and 11-12 are allowed.
7. Claims 9-10 are objected to but would be allowable if appropriate correction to address the objections are made.

Art Unit: 1777

8. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Conclusion***

9. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID C. MELLON whose telephone number is (571)270-7074. The examiner can normally be reached on Monday through Thursday 9:00am-5:30pm EST.
